## Invest \$1 here tomorrow

Copyright, 1914, Stone & McCarrick, Inc.

It may be putting it rather strong to command you to invest your money here. Let us put it this way. If we had the power, we would insist upon every person in this city, who is thinking about getting a piano, to investigate this sale. Because, this is a sale of merit. It is a sale of more advantages to buyers of pianos than any other piano sale ever held. It is a sale in which a single dollar is a big factor. A single dollar starts you in the ownership of a piano which will be a credit in your home during half your natural lifetime. A single dollar a week will meet your payments for the first entire year. Your second year's payments are only one dollar and 25 cents a week. A single dollar spent in this sale is an investment. It is an investment which immediately pays a cash dividend, for you buy 350 dollars worth of as satisfactory piano as you can possibly put in your home for 266 dollars, to say nothing of the dividends in refined entertainment and instruction. Come in tomorrow and look at these pianos. You will not be urged to purchase. We will be perfectly content to let your own good sense be the judge of whether or not you should seize this opportunity.

## D. J. MARSH

Corner Main and Water St., Norwich

No. 230 State St., New London, Conn.

## It is worth so much to intending piano buyers, that they should know of the many advantages of this sale, we are summing up the whole proposition again

This is a sale which was inaugurated by The Autopiano Company, New York City.

We are participating in it at their invitation; along with 15 other houses throughout the United States.

Out of 5000 instruments they intend to dispose of through this plan, we were allotted 250 pianos and 150 player-pianos, for this section.

When we have disposed of this allotment, we can get no more to sell upon the same terms and conditions.

The pianos sell regularly at \$50 dollars each. This sale's price is 266 dollars each.

The player-pianos sell regularly at \$50 dollars each. This sale's price is 413 dollars each.

One dollar is your initial payment. Either upon the piano or the player-piano.

The instrument you select is delivered at once.

The balance is spread out over a period of 3 years and 8 months time—without your having to pay additional interest for the accommodation.

This is so arranged that your easiest payments come during the first year of your agreement; your next easiest payments, during the second year, etc., etc.

Your first year's payments, if you select a piano, are only one dollar a week. Your second year's, but one dollar and 25 cents a week, etc.

If you select a player-piano, your first year's payments are one dollar and 75 cents a week.

The second year's payments, 2 dollars a week, etc., etc.

You have been given every protection that we, who are conducting this sale, could think of, which would be of benefit or assurance to you, in making your purchase.

You can get your money back after a thirty days' trial of the piano or, player-piano.

You may exchange at any time, up to within one year from the date of your purchase, without incurring any loss or expense.

You are given an unconditional guarantee covering the first five years' life of the instrument.

And, as a crowning feature, we are going to make it a practice during this sale, to cancel the account of any purchaser who dies before all his payments have been made, provided only that his account is up to date at the time of death.

We ask you plainly, in your own interest, can you afford to ignore a sale which carries with it so many advantages?

All instruments sold during this sale will be delivered at once. Arrangements may be made, however, to have an instrument set aside, after being selected, to be delivered later.

During this sale, the Piano Department will be opened at evenings by appointment, for which no charge may be made by calling phone No. 1093-3.

## DANIELSON AND PUTNAM NEWS

### DANIELSON

Judge Oscar F. Atwood of Brooklyn Lane Democrat to Success—Tax Increase to Be Opposed—Speculation as to Securing Post Office Appropriation.

Mrs. Everett Maguire and Mrs. George Maurice of Norwich were recent visitors with local relatives. William M. Franklin and Raymond Baylow, hunting without the aid of a dog, brought in eight partridges. John B. Norton of Providence was a visitor with friends in Danielson Thursday.

P. W. Beckett of Providence has been spending a few days with relatives in Danielson.

Frank Lore of Springfield has been called here by the death of his father, Charles W. Lore.

Mr. and Mrs. H. Denham Arnold are occupying their new home at Elmville.

Postmaster C. A. Pether is engaged in arranging details for the establishment of the free delivery mail service in Danielson.

G. O. Benson of Great Barrington is spending a few days with Danielson relatives.

Only Democratic Member. Judge Oscar F. Atwood of Brooklyn will be the only democratic member of the house at Hartford from county towns in this section.

Five Druggists Licenses. The county commissioners granted druggists licenses to the five applicants in the town of Killingly.

Joseph Hennessey, the big league baseball player, who spent his boyhood days in Danielson, is to be with the Washington team of the American League next season.

Older mills in this section are having a busy season, hundreds of barrels of the juice being produced during the past few weeks. Only one mill has been in operation in Danielson.

Will Oppose Tax Increase. Bitter opposition to any increase in the tax rate is promised, in view of the special town meeting it is said will be called, by the leaders of those who this week opposed the laying of

a tax in excess of 12 mills. Regardless of all considerations, they say they will fight to the last against the higher rate. It is now being claimed that not more than half of those present at this week's meeting voted on the tax question, one way or the other and that when the next meeting is called the check lists should be used and ballots cast.

Representatives Well Qualified. Judge Harry E. Back and Charles E. Ayer, Killingly's two representatives in the coming session of the general assembly, are expected to take a prominent part as reflecting the legislative desires of this section. Judge Back's name is already being mentioned in connection with the makeup of the judiciary committee, probably the most important in the legislature, and his friends here hope to see him a member of it. Mr. Ayer is one of the leading Republicans of the town and has previously been honored by his party by election to town offices. As a member of the board of selectmen his work in the town's interest was commended.

Dilatory Property Owners. As is always the case, a considerable number of property owners in Killingly failed to get their lists of taxable holdings into the hands of the assessors within the time specified, so they will be called upon to stand for the extra ten per cent. assessment required by law. The lists filed are now being arranged and by next week it is expected the assessors will commence their meetings leading to the making up of the grand list, which will show some increase this year, how much has not been estimated at this time.

Motion Not Passed. The motion to pay Killingly's tax collector a salary of \$300, subject to certain conditions, was not passed by the adjourned annual town meeting, as erroneously reported.

New Cement Piers. Repairs to the bridge over the Assawamuck river at Main street, which have been put in to strengthen the structure.

Most of the saloons which closed Monday night for a year of no-license are being held under lease in the hope

the lessees that the town will vote favor of license again next year. Over this way Windham democrats are getting the credit for helping elect a republican sheriff in Windham county through their close friendship with Charles A. Gates, the successful republican candidate.

Noted for His Charities. Charles W. Lowe, who died suddenly Wednesday afternoon at his place on the West Side, was one of Danielson's charitable men. His gifts to the poor were generous and frequently made. Children especially benefited through his benefactions.

Soon to Open. Equipment of the temporary quarters of the Danielson Trust company in the Phoenix building has progressed during the past few days. Prospective depositors have been given a choice of a number of styles of check books, indicating that the bank is soon to open for business.

Aiding Belgian Refugees. Some responses have been made to the appeal of Miss Clara Danielson of Boston, through her father, Henry M. Danielson of this place, for aid to the Belgian refugees at Oxford, England, but there is opportunity for much more to be done in Danielson for these suffering people.

May Secure Post Office Appropriation. The defeat of Congressman R. F. Mahan has raised the question of what will become of his bill providing an appropriation for a federal post office building in Danielson. Congressman Mahan may be able to do considerable yet toward the matter and it is expected that Congressman-elect Freeman will carry the appropriation forward in case this work cannot be carried out during congressman Mahan's term in office. To the retiring congressman Mahan owes the establishment, ordered for January 2, of free delivery service of mail, a service that has been sought for a long time.

AUTOMATIC SPRINKLERS WORKED. Saved a Bad Fire at the International Cotton Company Mills.

Floods of water released from the automatic sprinkler system prevented a disastrous fire and the probable destruction of the International Cotton company mills at East Killingly on Thursday afternoon. Fire broke out in the picker room, possibly from some metallic substance running through a machine, and almost instantly the room was filled with a choking smoke which drove the employees out into the

streets. New York paper characterized the fire as a case in which the use of the National Prohibition party's night celebrators, concurs in the opinion. A spot in the paving on Elm street near Ballard & Clark's shows what was done here.

House to House Canvass. A house to house canvass will be conducted here tomorrow (Saturday) in connection with the election in Europe, the local campaign under the auspices of the Danielson Trust company chapter, D. A. R. Mrs. W. F. Rafferty, Miss Edna Chapin, Mrs. E. E. Kent, Mrs. E. E. Shaw, Mrs. E. E. Johnson, Mrs. E. E. Medbury and the Tiger patrol of Boy Scouts will cover the routes laid out.

Rev. John Van den Noort Writes From Holland. From Dordrecht, Holland, where he has been making his home since he retired from the pastorate of St. Mary's church here after a service of many

years, Rev. John Van den Noort writes of war time conditions in his country and expresses some interesting views and opinions relative to the great struggle now being waged. His letter indicates that his sympathies in the gigantic struggle are with Germany. He expresses regret over the action of Canadian soldiers of whom were members of his parish here, in enlisting to fight Trenchard's battles in a foreign land.

Principal H. D. Martin's Resigns at Trade School—Boy Scouts to Aid in Tag Day Canvass—Body Found in Trench May Be Louis Guilbert.

Mrs. Emma G. Dietrich, Lockport, N. Y., here for the W. C. T. U. institute Thursday, addressed the pupils in the Israel Putnam aid high school.

Mayor Archibald Macdonald has called this month's delayed meeting of the common council for next Tuesday evening.

The home of Clarence Williams of Woodstock was recently badly damaged by lightning, the lower floor of the structure being wrecked.

Town Clerk David Flagg continues to receive for record deeds of houses sold at Sunset Manor, the old fair grounds.

Assessors Walter Carpenter, Hector Duver and Ernest B. Kent will have some lists to which they must add 10 per cent because the taxpayers did not file them within the time limit.

A generous offering has been sent by the Sunday school of the Methodist church for the Christmas ship that is to sail with gifts for European war sufferers.

Mrs. Mary Arnold will be the leader of the P. E. U. meeting at the Baptist church Sunday evening.

Mrs. George Baker of Freedom street has returned from a visit with relatives in Central Virginia.

Gone to Virginia. Charles S. Weaver, who recently moved from Putnam Heights to Thompson's farm, is gone to Virginia on a shooting trip.

A session of the city court Thursday morning disposed of a case in which a Grovesvordale man was presented for intoxication.

To Leave Trade School. Principal H. D. Martin of the Putnam Trade School has resigned, his resignation to become effective December 1. Mr. Martin predicts a bright future for the new school, but a desire to get back to manufacturing impelled him to give up his principalship.

Senseless Damage. In an editorial comment Thursday morning, the New York paper characterized as malicious mischief the practice of damaging asphalt paving by lighting bonfires upon it. Putnam, which had similar experience with election night celebrators, concurs in the opinion. A spot in the paving on Elm street near Ballard & Clark's shows what was done here.

House to House Canvass. A house to house canvass will be conducted here tomorrow (Saturday) in connection with the election in Europe, the local campaign under the auspices of the Danielson Trust company chapter, D. A. R. Mrs. W. F. Rafferty, Miss Edna Chapin, Mrs. E. E. Kent, Mrs. E. E. Shaw, Mrs. E. E. Johnson, Mrs. E. E. Medbury and the Tiger patrol of Boy Scouts will cover the routes laid out.

Rev. John Van den Noort Writes From Holland. From Dordrecht, Holland, where he has been making his home since he retired from the pastorate of St. Mary's church here after a service of many

ships were friendly that they launched a boat to greet the visitors. They had hardly started when two cutters loaded with German sailors and marines, in tow of a launch, came for the beach at full speed.

The Germans jumped over into waist-deep water, and with bayonets fixed charged ashore and seized the cable headquarters. The Nurnberg's guns covered the landing party. The Germans then lined up the cable operators. Several parties were directed to locate the shore end of the cable and this was done in a matter of minutes. Other men blew up the engine room, the boiler room, the refrigerating room and the dynamo room. All the instruments were smashed with sledge hammers. Papers were taken from the office and transferred to the Nurnberg. These revealed the most that spare instruments and arms and ammunition were buried in various parts of the island and there was \$300 in the office safe.

An officer went ashore, ordered the safe blown open and took the money. The arms, ammunition, and instruments were found and destroyed.

### BROADER INQUIRY FOR INVESTMENT ISSUES

And General Advance in the Prices of Listed Securities.

New York, Nov. 5.—The result of the recent elections was reflected today in a broader inquiry for investment issues and general advance in the prices of listed securities being traded in outside the stock exchange.

Another factor was the announcement that the Liverpool cotton exchange is to reopen on a restricted basis of operations. The news created a feeling of optimism in local cotton circles, where it was felt that similar action would soon be taken.

Stock exchange authorities lost little time in denying reports that the representatives of the October statement now conferring with treasury officials and bankers had stated the "stability of an indefinite suspension of regular market operations." It is a fact, however, that at this time, not even an approximate date for the reopening of the local exchange has been set.

Improvement in sentiment was most pronounced in the steel trade, despite the belief that the October statement of the United States Steel corporation, to be issued next Tuesday, is likely to be a disappointment. In other lines, including textiles, also expressed a more hopeful view of the immediate future.

### HOSPITAL SHIP WAS INJURED BY MINE

Captain of Rohilla Ran Her on Rocks to Escape Sinking

London, Nov. 5.—The hospital ship Rohilla, which was recently wrecked off the Yorkshire coast with a large number of casualties, was struck by a mine and so badly injured that the captain was forced to run her onto the rocks in order to escape sinking at sea. Captain Wilson, the commander of the Rohilla, gave testimony to this effect at an inquest held today. It had been generally understood that the vessel merely got off the rocks near Whitby and piled on the rocks. Rohilla struck that and when he did not run ashore she would have sunk with the loss of all hands on board.

### RESIDENT WANTS A FEW DAYS OF REST

Wishes Some Emergency Arises He Will Leave for California Tomorrow

Washington, Nov. 5.—President Wilson wants a few days of rest. He has cautioned tomorrow's regular cabinet meeting that he is unable to attend. He will leave for California tomorrow. He is generally expected that the president would leave Washington for a short vacation. The election, put up to the president, he has no plans for going away, believing that he should remain here because of the conditions in Europe and Mexico.

Mr. Wilson soon will begin to give consideration to five appointments he is to make in December to the new trade commission. A number of democratic members of congress who fall of re-election were disappointed in the nomination. Representative Palmer, who was defeated for election to the senate from Maryland, and Commissioner of Corporations Dyer are being prominently mentioned for the commission.

### LIVERPOOL COTTON EXCHANGE OPENS TODAY

Trading Will Be Confined to Buying—No Selling Permitted

New York, Nov. 5.—The Liverpool cotton exchange will open tomorrow for restricted trading. It was announced in an official telegram received here today by the New York cotton exchange. Trading will be in May-June deliveries.

The Rev. Clement G. Clarke of Peoria, Ill., asserted that the fight against vice, gambling and allied evils was a fight against the liquor interests.

### GREEKS ARE AWAITING BULGARIA'S DECLARATION

Legation at Washington Betray Intense Interest.

Washington, Nov. 5.—Officials at the Greek legation in this city are waiting with intense interest a declaration from Bulgaria as to whether she will side with the Turks or the allies, or continue her neutrality. It is freely admitted that Bulgaria's sword in the balance may turn the scales to war for the rest of the Balkans.

It was pointed out at the Greek legation that Turkey's belligerency need not affect Greece, since the two countries are not co-terminous and the danger zones about the islands of Mytilene and Chios, whose occupation by Greece has been the chief cause of the young Turk's greater war movement, are well guarded by allied warships in the Mediterranean. It has already been stated by Minister Scleman, however, that the participation of another Balkan state in the war would mean immediate action of the Hellenic government.

Statements of the entente powers here today thought it highly unlikely that Bulgaria would arm against Russia. They suggested that the menace of Roumanian army on her northern frontier was likely to be a greater incentive for peace than any secret alliance with the ports could be for war.

### PACIFIC CABLE HAS BEEN REOPENED

Put Out of Business Sept. 7 by Crew of German Cruiser Nurnberg.

Vancouver, B. C., Nov. 5.—The Pacific cable which connects Canada with Australia was reopened today. It was put out of business Sept. 7 when the German cruiser Nurnberg, steamed to Fanning Island, flying the French flag and accompanied by a collier, so sure were the cablemen that the

ships were friendly that they launched a boat to greet the visitors. They had hardly started when two cutters loaded with German sailors and marines, in tow of a launch, came for the beach at full speed.

The Germans jumped over into waist-deep water, and with bayonets fixed charged ashore and seized the cable headquarters. The Nurnberg's guns covered the landing party. The Germans then lined up the cable operators. Several parties were directed to locate the shore end of the cable and this was done in a matter of minutes. Other men blew up the engine room, the boiler room, the refrigerating room and the dynamo room. All the instruments were smashed with sledge hammers. Papers were taken from the office and transferred to the Nurnberg. These revealed the most that spare instruments and arms and ammunition were buried in various parts of the island and there was \$300 in the office safe.

An officer went ashore, ordered the safe blown open and took the money. The arms, ammunition, and instruments were found and destroyed.

BROADER INQUIRY FOR INVESTMENT ISSUES

And General Advance in the Prices of Listed Securities.
